The nine principles are a set of living guidance intended to help practitioners succeed in applying digital technologies to development programs.

Digital Principles for Development
February 25th 2022 4:00pm SAST/9.00am ET

Register Here

After registering, you will receive a confirmation email containing information about joining the meeting.

The purpose of the learning webinar in partnership with DIAL, is to build capacity for participating individuals from national coalitions, and including those from the African countries participating in the GIZ scoping study, about the principles for digital development. The desired outcome would be to help the participating individuals contextualise the digital principles for development in the education sector.
